## Hatch Chart

Common Name <sup>1</sup>	Scientific Name <sup>2</sup>	Peak Emergence <sup>3</sup>	Hook Size <sup>4</sup>	Month <sup>5</sup>								
				March	April	May	June	July	Aug	Sept	Oct	
Midges	Chironomidae	All day	22 & smaller	1	---	---	---	---	---	---	---	31
Medium Evening Sedge <sup>6</sup>	Dolophilodes distinctus	Morn & Aft	18	1	---	---	---	---	---	---	---	31
Sculpin	Cottidae	Nighttime	6 - 4x Long	1	---	---	---	---	---	---	---	31
Worms	Clitelatta-Oligochaeta	All day	14 - 1" - 4"	1	---	---	---	---	---	---	---	31
Cress Bugs	Caecidotea	All day	14-18	1	---	---	---	---	---	---	---	31
Ants - Black, Red, Flying	Formicidae	All day	14-18	1	---	---	---	---	---	---	---	31
Early Black Stone	Taeniopteryx nivalis	Warmest Part	16-20	1	30							
Early Brown Stone	Strophopteryx fasciata	Midday	16-18	1	---	5						
Little Black Caddis <sup>7</sup>	Apatania incerta	All day	18-20	20	---	31						
Large Black Stonefly	Pteronarcys dorsata	Overnight	2-4 2x Long		1	31						
Blue Wing Olive	Baetis tricaudatus	Warmest Part	18-20		15	31						
Blue Quill <sup>8</sup>	Paraleptophlebia adoptiva	Midday	16-18		15	---	---	20				
Quill Gordon	Epeorus pleuralis	Early Afternoon	12-14		15	---	15					
Hendrickson	Ephemerella subvaria	Mid Aft for 1hr.	12-16		15	---	20					
Apple Caddis <sup>9</sup>	Brachycentrus appalachia	Usually Aft.	16-18		20	---	20					
Crayfish	Decapoda	Nighttime	6 - 4x Long			1	---	---	---	30		
Little Black Sedge	Chimarra	Morning	18-20			1	15					
Large Blue Wing Olive	Drunella lata	Morning	14-16			1	---	31				
Yellow Sally	Isoperla	Late Night	12-14			4	30					
Miniature Blue Wing Olive	Acentrella turbida	All Day	22-26			10	---	---	---	---	---	15
Darth Vader <sup>10</sup>	Serratella deficiens	Late Morning	22-24			10	---	---	---	---	30	
Large Sulphur	Ephemerella invaria	Mid Afternoon	12-14			10	10					
Little Yellow Stone	Chloroperlidae	Morning	12			15	---	---	31			
Sulphur	Ephemerella dorothea	Mid-Late Even	16-18			15	15					
March Brown	Maccaffertium vicarium	Mid Afternoon	12 - 2x Long			15	15					
Green Sedge	Rhyacophila	Afternoon	16-18			15	20					
Dark Blue Sedge <sup>11</sup>	Psilotreta	Evenings	14-16			15	30					
Spotted Sedge	Ceratopsyche morosa	Dusk	16-18			15	---	---	---	15		
Little Sister Sedge <sup>12</sup>	Cheumatopsyche	Dusk	10-12			15	15					
Green Drake	Ephemera guttulata	Dusk	12 - 2x Long			15	15					
Coffin Fly	Ephemera guttulata	Evenings	12 - 2x Long			15	15					
Brown Drake	Ephemera simulans	Dusk	14 - 2x Long			15	15					
Light Cahill <sup>13</sup>	Stenacron	light all day	12-16			15	---	---	---	---	30	
Little Dark Hendrickson <sup>14</sup>	Ephemerella needhami	Late Morning	14-16			15	---	31				
Gray Fox <sup>15</sup>	Maccaffertium vicarium	Mid Afternoon	12-14 - 2x Long			20	20					
Plain Brown Sedge	Lepidostoma	Evenings	18-20			25	---	---	15			
Little Grey Sedge	Goera	Evenings	18-20				1	31				
Slate Drake <sup>16</sup>	Isonychia bicolor	Dusk	10-14 - 2x Long				1	---	---	---	30	
Golden Stone <sup>17</sup>	Acroneuria Abnormis	Early Evening	8-10 - 2x Long				1	---	31			
Golden Stone	Agnetina capitata	Morning	8-12				1	---	31			
Golden Stone <sup>18</sup>	Paragnetina media	Early Nighttime	8-10				1	---	31			
Pale Evening Dun <sup>19</sup>	Epeorus vitreus	Dusk	14-16				1	---	---	---	---	31
Light Blue Wing Olive	Dannella simplex	Morning	18-20				15	---	---	---	15	
Golden Drake	Anthopotamus distinctus	Dusk	8-10				15	---	25			
Yellow Drake	Ephemera varia	Dusk	12 - 4x Long				15	31

## Hatch Chart

Common Name <sup>1</sup>	Scientific Name <sup>2</sup>	Peak Emergence <sup>3</sup>	Hook Size <sup>4</sup>	Month <sup>5</sup>							
				March	April	May	June	July	Aug	Sept	Oct
Trico	Tricorythodes	Early Morning	24-26					1	---	---	31
Beetles	Coleoptera	All day	14-16					1	---	30	
Hoppers	Acrididae	All day	14					1	---	30	
Crickets	Gryllidae	All day	14					1	---	30	
Sulphur <sup>20</sup>	Leucrocuta hebe	Evenings	18-20						10	--	5
Autumn Sedge	Pycnopsyche	Nighttime	8						20	---	15

## Note Key

- 1 - Click on "Common Names" to link to [www.JerryHadden.com](http://www.JerryHadden.com)
- 2 - Click on "Scientific Names" to link to [www.TroutNut.com](http://www.TroutNut.com)
- 3 - In many cases, earlier or later emergence can take place, listed is the normal peak times, when concentrations are normally heaviest.
- 4 - Click on "Hook Sizes" to link to [www.FishinMusician.LoveTheArts.com](http://www.FishinMusician.LoveTheArts.com)
- 5 - Approximate earliest day of the month to latest day of the month observed
- 6 - also known as Tiny Black Gold Speckled-Winged Caddis
- 7 - also known as Early Smoky Wing Sedge
- 8 - also known as Small Dark Quill
- 9 - also known as Shad Fly, Popcorn, Grannom
- 10 - almost identical to Little Dark Hendrickson<sup>14</sup> *Ephemerella needhami* except for their smaller size
- 11 - also known as Black Caddis
- 12 - also known as Ginger Caddis
- 13 - also known as Ginger Quills
- 14 - best imitated by a dark red quill
- 15 - formerly *Stenonema fuscum* - Despite now being taxonomically classed with the March Brown as *Maccaffertium vicarium*, is a different animal, and one of Creamton's premier early summer hatches.
- 16 - also known as Mahogany Dun, White-Gloved Howdy
- 17 - also known as Great Brown Stone
- 18 - also known as Embossed Stonefly
- 19 - also known as Orange Sulphur
- 20 - also known as Little Yellow Quill
